

Each year, Alberta Health Services (AHS) Public Health School Immunization Program reviews immunization records for students in Gr.1, 6 & 9 and provides recommended program vaccines. Though the priority of School Health Nurses has been supporting the COVID-19 Clinics, we are also working to provide **regularly scheduled program** vaccines to school-aged children.

**West Jasper Place Public Health Centre** (9720 182 Street NW, 780-342-1234, option 3) is the designated health centre for your child's school. As time permits, School Nurses from West Jasper Place will either contact you directly or contact the school about upcoming immunization opportunities for program vaccines.

**Albertans born in 2009 or earlier are also eligible to receive the COVID-19 vaccine.**

*How soon before or after another vaccine (including Influenza vaccine), can an individual receive COVID-19 vaccine?*

At this time, it is recommended individuals wait at least 28 days after the administration of a dose of COVID-19 vaccine to get another vaccine, including the influenza vaccine.

It is also recommended to wait a period of at least 14 days after the administration of another vaccine, including the influenza vaccine, before getting a COVID-19 vaccine.

For COVID-19 vaccine information please visit: [COVID-19 vaccines \(alberta.ca\)](https://www.alberta.ca/covid-19-vaccines) or for information about COVID-19 vaccine phases: [COVID-19 vaccine program | Alberta.ca](https://www.alberta.ca/covid-19-vaccine-program)

For information on the Alberta Routine Immunization Schedule please visit: [AHS Immunization \(immunizealberta.ca\)](https://www.alberta.ca/ahs-immunization)

Thank you for your understanding,  
West Jasper Place School Health Nursing Team
